Adjustments and Disruption Events

Adjustments and Disruption Events If any Valuation Date is a Disrupted Day in respect of an Index, to the extent that any determination or valuation is required on that day in respect of the Notes, the level such Index shall not be determined by reference to the official closing level, if any, announced or published by the relevant Index Administrator on that Valuation Date, but shall instead be determined by the Calculation Agent as follows:

- (A) with respect to each Underlying Contract not affected by the occurrence of a Disrupted Day, the level of the Index will be based on the settlement price of such Underlying Contract on the relevant Valuation Date; and
- (B) with respect to each Underlying Contract which is affected by the occurrence of a Disrupted Day, the level of the Index will be based on the settlement prices of each such Underlying Contract on the first day following the applicable Valuation Date which is not a Disrupted Day with respect to such Underlying Contract, provided that, if the immediately following three Scheduled Trading Days are all Disrupted Days then the price of such Underlying Contract to be used in calculating the level of the Reference Underlying (which for the avoidance of doubt could be zero) shall be determined by the Calculation Agent in its sole discretion and acting in good faith on the third Scheduled Trading Day following the relevant Valuation Date.
- (C) The Calculation Agent shall determine the level of the Index in respect of the applicable Valuation Date using the settlement prices determined in subparagraphs (i) and (ii) above in accordance with the formula for and method of calculating the level of the Underlying last in effect prior to the occurrence of the first Disrupted Day,

and provided further that if on any such day the Calculation Agent determines that an FX Disruption Event or Unwind Disruption Event has occurred, the Calculation Agent shall make such further amendments as it considers appropriate to take account of the relevant FX Disruption Event or the Unwind Disruption Event (as relevant).

Disrupted Day	In respect of each Index, any Scheduled Trading Day on which the Exchange fails to open for trading during its regular trading session or on which a Market Disruption Event has occurred.
Market Disruption Event	Means the occurrence or existence of (i) a Trading Disruption, (ii) an Exchange Disruption, which in either case the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time, or (iii) an Early Closure. For the purposes of determining whether a Market Disruption Event in respect of any Index exists at any time, if a Market Disruption Event occurs in respect of a security included in such Index at any time, then the relevant percentage contribution of that security to the level of such Index shall be based on a comparison of (x) the portion of the level of such Index attributable to that security and (y) the overall level of such Index, in each case immediately before the occurrence of such Market Disruption Event.
Valuation Time	The time at which the official closing level of the Equity Index is computed by the Index Sponsor.
Trading Disruption	Has the meaning given to it in the Information Memorandum.
Exchange Disruption	Has the meaning given to it in the Information Memorandum.
Early Closure	Has the meaning given to it in the Information Memorandum.
FX Disruption Event	Means (i) an event that generally makes it illegal, impossible, impractical or inadvisable to convert one unit of the currency in which any non-ZAR denominated Underlying is denominated (the " Denomination Currency ") into the Specified Currency, or an event

that generally makes it impossible to deliver the Specified Currency from accounts in which they are held to accounts outside of the jurisdiction of the Denomination Currency; or (ii) the general unavailability to exchange the Specified Currency at a spot rate (applicable to the purchase of the Specified Currency for the Denomination Currency) in any legal currency exchange market in the principal financial centre for the Denomination Currency, if, in the determination of the Calculation Agent, the occurrence of any such events is material.

Unwind Disruption Event Means, in respect of any date, the Issuer or a Notional Investor would be unable to unwind its investments in the Underlying on or by such date.

For the purposes of the above, "**Notional Investor**" means a hypothetical person with obligations similar to those of the Issuer in respect of the Notes, who has elected to hedge those obligations.

Corporate Actions Adjustments If, at any time, any event occurs in relation to any Underlying which the Calculation Agent determines requires any adjustment(s) to be made, then the Calculation Agent shall (i) determine which adjustment(s) are to be made to the Underlying with a view to account for the effect of the relevant event and (ii) determine the date on which such adjustment(s) shall take effect.

Index Adjustment Events

Index Adjustment Event	<p>(a) If the Underlying is permanently cancelled or is not calculated and announced by the Index Administrator but is (i) calculated and announced by a successor administrator (the "Successor Administrator") acceptable to the Calculation Agent, and/or (ii) replaced by a successor index (the "Successor Index") using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of the relevant Index, then the Underlying will be deemed to be the index so calculated and announced by the Successor Administrator and/or the Successor Index, as the case may be.</p> <p>(b) If in the determination of the Calculation Agent (i) on or prior to any Valuation Date, the Index Administrator makes or announces that it will make a material change in the formula for or the method of calculating the Underlying or in any other way materially modifies the Underlying (other than a modification prescribed in that formula or method to maintain the Underlying in the event of changes in constituent Underlying Contracts and weightings and other routine events) (an "Index Modification"); (ii) the Index Administrator permanently cancels the Underlying and no Successor Index exists (an "Index Cancellation"); (iii) on any Valuation Date, the Index Administrator fails to calculate and announce a relevant Underlying and the Calculation Agent determines that there is no Successor Administrator and/or Successor Index (an "Index Disruption" and, together with an Index Modification, an Index Cancellation and an Administrator/Benchmark Event, each an "Index Adjustment Event"); or (iv) an Administrator/Benchmark Event has occurred, then the Calculation Agent may at its option take the action described in (A) or (B) below:</p> <p>(A) make such adjustments to the terms and conditions of the Notes as it deems appropriate to account for the Index Adjustment Event including, without limitation, calculating the relevant level or price of the Underlying, using, in lieu of a published level or price for the Underlying, the level or price of the Underlying as at the applicable Valuation Date as determined by the Calculation Agent in accordance with the formula for and method of calculating the Underlying last in effect prior to the occurrence of the relevant Index Adjustment Event, but using only those Underlying Contracts that comprised that Underlying immediately prior to the relevant Index Adjustment Event (other than those Underlying Contracts that have ceased to be listed on any relevant Exchange); or</p> <p>(B) on giving notice to the Noteholders in accordance with Condition 13, redeem all (but not some only) of the Notes, each nominal amount of Notes equal to the Calculation Amount being redeemed at an amount equal to the fair market value of such Notes, less a pro rata share of the costs of unwinding any related underlying related hedging arrangements, as determined by the Calculation Agent in its sole discretion on a day selected by the Calculation Agent, which such day must be at least 5 Commodity Business Days prior to the due date for early redemption.</p>
Administrator/Benchmark Event	In relation to an Index, the occurrence of a Non-Approval Event, a Rejection Event or a Suspension/Withdrawal Event.
Non-Approval Event	in respect of each Index: <ul style="list-style-type: none">(a) any authorisation, registration, recognition, endorsement, equivalence or approval in respect of the Underlying or the administrator or sponsor of the Underlying is not obtained;(b) the Underlying or the administrator or sponsor of the Underlying is not included in an official register; or(c) the Underlying or the administrator or sponsor of the Underlying does not fulfil any legal or regulatory requirement applicable to the Issuer, the Calculation Agent or the Underlying,

in each case, as required under any applicable law or regulation in order for any of the Issuer, the Calculation Agent or any other entity to perform its obligations in respect of the Notes. For the avoidance of doubt, a Non-Approval Event shall not occur if the Underlying or the administrator or sponsor of the Underlying is not included in an official register because its authorisation, registration, recognition, endorsement, equivalence or approval is suspended if, at the time of such suspension, the continued provision and use of the Underlying is permitted in respect of the Notes under the applicable law or regulation

during the period of such suspension.

Rejection Event in respect of each Index, the relevant competent authority or other relevant official body rejects or refuses any application for authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register which, in each case, is required in relation to the Underlying or the administrator or sponsor of the Underlying under any applicable law or regulation for any of the Issuer, the Calculation Agent or any other entity to perform its obligations in respect of the Notes.

Suspension/Withdrawal Event in respect of each Index:

- (a) the relevant competent authority or other relevant official body suspends or withdraws any authorisation, registration, recognition, endorsement, equivalence decision or approval in relation to the Underlying or the administrator or sponsor of the Underlying which is required under any applicable law or regulation in order for any of the Issuer, the Calculation Agent or any other entity to perform its obligations in respect of the Notes; or
- (b) the Underlying or the administrator or sponsor of the Underlying is removed from any official register where inclusion in such register is required under any applicable law in order for any of the Issuer, the Calculation Agent or any other entity to perform its obligations in respect of the Notes.

For the avoidance of doubt, a Suspension/Withdrawal Event shall not occur if such authorisation, registration, recognition, endorsement, equivalence decision or approval is suspended or where inclusion in any official register is withdrawn if, at the time of such suspension or withdrawal, the continued provision and use of the Underlying is permitted in respect of the Notes under the applicable law or regulation during the period of such suspension or withdrawal.
