2. Consequences of Disrupted Days

Reference Portfolio Calculation Dates

As contemplated in the Reference Portfolio Advisory Agreement, in the event that the Calculation Agent determines that any Reference Portfolio Calculation Date is a Disrupted Day with respect to any Constituent or Eligible Constituent selected by the Reference Portfolio Advisor for the purposes of a Rebalancing, then such Constituent or Eligible Constituent shall not be notionally sold or purchased on the relevant Rebalancing.

In addition, and for the purposes of determining the value of the Reference Portfolio as at such Reference Portfolio Calculation Date, (a) the price of each Constituent that is not affected by the occurrence of such Disrupted Day shall be the closing price of such Constituent on the relevant Exchange or Related Exchange on that Reference Portfolio Calculation Date and (b) the price of each Constituent that is affected by the occurrence of such Disrupted Day shall be determined by the Calculation Agent in accordance with the paragraph below, as if such Reference Portfolio Calculation Date was the Redemption Determination Date.

The Redemption Determination Date

If the Calculation Agent determines that the Redemption Determination Date is a Disrupted Day in respect of any Constituent, then for the purposes of determining the value of the Reference Portfolio as at such Redemption Determination Date, (a) the price of each Constituent that is not affected by the occurrence of such Disrupted Day shall be the closing price of such Constituent on the relevant Exchange or Related Exchange on that Redemption Determination Date and (b), in respect of each Constituent that is affected by the occurrence of such Disrupted Day, the Redemption Determination Date shall be postponed to the following Constituents Business Day with respect to such Constituent *provided that* if such day does not occur within 8 (eight) consecutive Constituents Business Days immediately following the date scheduled to be the Redemption Determination Date, the price of such Constituent shall be determined by the Calculation Agent by reference to its good faith estimate of the fair market value for such Constituent on that eighth Constituents Business Day.

For these purposes:

“Constituents Business Day” means, in respect of any Constituent, a day on which (i) the relevant Exchange and

- (iii) make any adjustment to the Conditions that it determines to be appropriate to account for the FX Disruption Event.

In respect of any Business Day on which an FX Disruption Event has occurred, the value of any Constituent (including for the purposes of determining the Reference Portfolio Level) that is not denominated in ZAR shall be determined (if applicable) by the Calculation Agent in its sole and absolute discretion.

For the avoidance of doubt, the amount (if any) payable by the Issuer in respect of such Redemption Determination Date shall be determined by reference to the Redemption Determination Date as it is postponed (the **“Postponed Redemption Determination Date”**).

In the event that an Unwind Disruption Event is continuing on the Postponed Redemption Determination Date, the amount payable in respect of redemption of the Notes will be determined by reference to the Reference Portfolio Level on the Postponed Redemption Determination Date, as determined by the Calculation Agent acting in good faith, in accordance with (and subject to any minimum amount specified in) the relevant paragraph(s) of these Final Terms.

5. Conflict

If any event occurs and / or circumstances arise which mean that, in accordance with the Conditions (including the foregoing provisions of this paragraph 46 (*Additional Provisions*)), the Issuer is permitted to, or required to, take (or refrain from taking) any particular action or make any determination, or any other circumstances apply, in respect of two or more of a Stop Loss Event, a Disrupted Day, an FX Disruption Event or an Unwind Disruption Event (or any other provision in the Conditions) (to the extent applicable, a **“Relevant Event”**), the Issuer shall elect in its sole and absolute discretion to act in accordance with the provisions of the Conditions applicable in respect of any one such Relevant Event, notwithstanding anything to the contrary in the Conditions (including the foregoing provisions of this paragraph 46 (*Additional Provisions*)). (a) Reference Portfolio Adviser

The Reference Portfolio Adviser shall be ABSA Bank Limited.

Absa Bank is a wholly-owned subsidiary of the Barclays Africa Group. They offer a range of retail, business, corporate and investment banking, wealth management products and services primarily in South Africa and Africa.

Website: www.absa.co.za or www.rsp.absacib.co.za

(b) Reference Portfolio Description Document

The Old Mutual Wealth Global Equity Portfolio 1 Portfolio (the "**Reference Portfolio**") is a notional South African Rand ("**ZAR**" or the "**Reference Portfolio Currency**") denominated reference portfolio, created, actively managed and maintained by **ABSA Bank Limited** (the "**Reference Portfolio Advisor**").

The Reference Portfolio aims to replicate the performance of:

- (i) long only positions in stocks (each a "**Stock Constituent**") comprised in the Stock Investment Universe,
 - (ii) long only positions in equity net total return indices (each an "**Equity Index Constituent**") comprised in the Equity Indices Investment Universe,
 - (iii) long only positions in exchange-traded funds (ETFs) (each an "**ETF Constituent**") comprised in the ETF Investment Universe,
- all of the above together referred to as the "**Constituents**", combined with,
- (iv) a cash position denominated in the Reference Portfolio Currency (the "**Cash Position**"), which together with the Constituents shall be referred to as the "**Reference Portfolio Components**". The performance of the Reference Portfolio will be net of the relevant fees and costs described herein.

The Cash Position will accrue interest at the prevailing reference rate (the "**Reference Rate**"), as described herein, which may be negative from time to time.

The Reference Portfolio Adviser has created the Reference Portfolio by selecting the initial Constituents (the "**Initial Constituents**") on 18 October 2018 (the "**Pricing Date**"). The Initial Constituents are listed in Section 3 below. The notional value of the Reference Portfolio (the "**Initial Reference Portfolio Level**") will be ZAR 100.00 on the Pricing Date.

The Reference Portfolio Adviser is responsible for adjusting the composition of the Reference Portfolio from time to time thereafter (any such adjustment a "**Rebalancing**") in accordance with Section 4 below. Certain limitations apply as to the composition of the Reference Portfolio from time to time as described in such section.

The level of the Reference Portfolio (the "**Reference Portfolio Level**") is calculated in the Reference Portfolio Currency, net of fees and costs associated with the creation, maintenance and management of the Reference Portfolio, as described in Section 5 below.

The Calculation Agent may adjust the composition of the Reference Portfolio from time to time to account for corporate actions in respect of the Constituents and other similar events, as described in Section 6 below.

Whilst the Redemption Amount is linked to the market value of the Reference Portfolio Components, the Issuer is not obliged to invest the proceeds of the issuance of the Notes in any Reference Portfolio Component at any time and the holders of the Notes do not have any direct interest in, or beneficial ownership in any Reference Portfolio Component at any time.

Unless otherwise specifically provided herein, terms used in this document shall have the meanings given to such terms in, and shall be interpreted in accordance with, the terms and conditions of the relevant product linked to the Reference Portfolio.

2. Reference Portfolio Investment Universe, title selection criteria and investment restrictions

The Reference Portfolio, whose composition may vary from time to time, is actively managed by the Reference Portfolio Advisor and represents a notional investment in the Reference Portfolio Components as described in detail in the following. The Reference Portfolio Advisor is not allowed to select any additional securities, assets, exposures or contracts for inclusion in the notional Reference Portfolio apart from the ones that are part of the Investment Universes described below. The Reference Portfolio Advisor may select any securities, assets, exposures or contracts from the Investment Universes for inclusion in the notional Reference Portfolio (with such securities, assets, exposures or contracts becoming "Constituents" after inclusion in the Reference Portfolio) in its reasonable discretion pursuant and subject to the provisions contained in this document.

2.1 Stock Constituents

The Reference Portfolio may reference as Stock Constituents long positions in stocks from the universe described below (the "**Stock Investment Universe**").

Stocks that form part of the following index at the time of Rebalancing may be incorporated as Stock Constituents in the Reference Portfolio (each an "**Eligible Stock Constituent**"):

- (i) MSCI World Index (Bloomberg ticker: MXWO Index)

For long positions in Stock Constituents, a notional amount reflecting net dividends of the Stock Constituents, as converted into the Reference Portfolio Currency, where such Stock Constituent is not denominated in the Reference Portfolio Currency, at the then prevailing exchange rate, each as determined by the Calculation Agent in its reasonable discretion, will be paid into the Cash Position on the ex-dividend date of that Stock Constituent.

In respect of any Constituents which are U.S. equity securities, for purposes of determining the amount of a dividend treated as notionally reinvested, such dividend shall be reduced by the 30% withholding tax imposed by Section 871(m) of the U.S. Internal Revenue Code of 1986, as amended.

Eligible Stock Constituents from the Stock Investment Universe may be selected in the sole discretion of the Reference Portfolio Advisor pursuant and subject to the provisions contained in this document. The Calculation Agent may retain the right to reject the inclusion of any Eligible Stock Constituent due to any applicable rules, regulations and internal or external restrictions according to the provisions as set out below in Section 4 ("**Rebalancing of the Reference Portfolio**") below.

2.2 Equity Index Constituents

The Reference Portfolio may reference as Equity Index Constituents long positions in net total return equity indices (each an "**Eligible Equity Index Constituent**") from the universe described below (the "**Equity Indices Investment Universe**").

Equity Index Constituents	Bloomberg Ticker
S&P 500 Net Total Return Index	SPTR500N Index
FTSE 100 Net Tax Index	UKXNUK Index
EURO STOXX 50 Net Return EUR	SX5T Index
MSCI Japan Net Total Return USD Index	NDDUJN Index

In respect of any Constituents which are U.S. equity securities, for purposes of determining the amount of a dividend treated as notionally reinvested, such dividend shall be reduced by the 30% withholding tax imposed by Section 871(m) of the U.S. Internal Revenue Code of 1986, as amended.

Eligible Equity Index Constituents from the Equity Indices Investment Universe may be selected in the sole discretion of the Reference Portfolio Advisor pursuant and subject to the provisions contained in this document. The Calculation Agent may retain the right to reject the inclusion of any Eligible Equity Index Constituent due to any applicable rules, regulations and internal or external restrictions according to the provisions as set out below in Section 4 ("**Rebalancing of the Reference Portfolio**") below.

2.3 ETF Constituents

The Reference Portfolio may reference as ETF Constituents long positions in certain ETFs from the universe described below (the "**ETF Investment Universe**").

ETF Constituents	Bloomberg Ticker	Currency
ISHARES FTSE A50 CHINA INDEX ETF	2823 HK Equity	HKD
ISHARES MSCI EMERGING MARKETS ASIA ETF	EEMA UQ Equity	USD
ISHARES MSCI INDIA ETF	INDA UF Equity	USD
ISHARES PHLX SEMICONDUCTOR ETF	SOXX UQ Equity	USD

For long positions in ETF Constituents, a notional amount reflecting net dividends of the ETF Constituents, as converted into the Reference Portfolio Currency, where such ETF Constituent is not denominated in the Reference Portfolio Currency, at the then prevailing exchange rate, each as determined by the Calculation Agent in its reasonable discretion, will be paid into the Cash Position on the ex-dividend date of that ETF Constituent.

In respect of any Constituents which are U.S. equity securities, for purposes of determining the amount of a dividend treated as notionally reinvested, such dividend shall be reduced by the 30% withholding tax imposed by Section 871(m) of the U.S. Internal Revenue Code of 1986, as amended.

Eligible ETF Constituents from the ETF Investment Universe may be selected in the sole discretion of the Reference Portfolio Advisor pursuant and subject to the provisions contained in this document. The Calculation Agent may retain the right to reject the inclusion of any Eligible ETF Constituent due to any applicable rules, regulations and internal or external restrictions according to the provisions as set out below in Section 4 ("**Rebalancing of the Reference Portfolio**") below.

2.4 Cash Position

From time to time, the notional Reference Portfolio may also contain a Cash Position as a Reference Portfolio Component, which represents a notional holding of a cash account denominated in the Reference Portfolio Currency and accruing interest at the prevailing reference rate (the "**Reference Rate**"), which can be negative from time to time.

The Reference Rate is observed on every Business Day and shall be equal to the South Africa Rand Overnight Deposit Rate (Bloomberg page: RAONON <Index>) (the "**Relevant Screen Page**"), which for the avoidance of doubt may be negative from time to time.

If the Relevant Screen Page is not available, the Reference Rate shall be the equivalent rate as displayed on the corresponding page of another financial information service. If the Reference Rate is no longer displayed in one of these forms, the Calculation Agent is entitled to specify at its reasonable discretion a successor Reference Rate calculated on the basis of the standard market practices applicable at that time as the Reference Rate.

The value of the Cash Position will thereafter be positively or negatively affected by deductions and any Rebalancing and by Dividend payments of Constituents, as described in Section 2 and 4 herein. Finally, the Cash Position will be negatively impacted by the deduction of certain fees as described in Section 5 below.

The Cash Position may be notionally reinvested into Constituents from time to time, in the reasonable discretion of the Reference Portfolio Advisor.

2.5 Investment Restrictions

Eligible Constituents as well as Constituents may be selected by the Reference Portfolio Advisor for notional purchase or, as the case may be, sale or unwind in accordance with the following investment restrictions (the "**Investment Restrictions**"):

- (i) The Weight of the Cash Position shall at all times be greater than -5%.
- (ii) The sum of the notional values of ETF Constituents is capped at 33% of the Reference Portfolio Level of the Certificates.
- (iii) The sum of the Weights of all Constituents is capped at a maximum of 100% (the "**Leverage Threshold**") at all times during the lifetime of the product. In case the sum of the Weights of all Constituents exceeds the Leverage Threshold, the Calculation Agent is entitled to notionally sell Constituents at its reasonable discretion until the sum of the Weights of all Constituents is smaller than or equal to 95%. In respect of such notional sales of such Constituents, a notional credit (which may be equal to zero) shall be made to the Cash Position corresponding to the Notional Net Disposal Value (which may be equal to zero) of such Constituents with effect from the date of such Constituents' notional sale.
- (iv) The Holdings of each ETF Constituent is capped at a maximum of 5% of the assets under management of such ETF Constituent, as determined by the Calculation Agent in its reasonable discretion (the "**Concentration Threshold**") at all times during the lifetime of the product. In case the Holdings of an ETF Constituent exceed the Concentration Threshold, the Calculation Agent is entitled to notionally sell such ETF Constituent at its reasonable discretion until the Holdings of such ETF Constituent are smaller than or equal to the Concentration Threshold. In respect of such notional sales of such ETF Constituent, a notional credit (which may be equal to zero) shall be made to the Cash Position corresponding to the Notional Net Disposal Value (which may be equal to zero) of such ETF Constituent with effect from the date of the notional sale of such ETF Constituent.

For the avoidance of doubt: The responsibility and legal duty that the Reference Portfolio complies with the above guidelines is solely with the Reference Portfolio Advisor.

2.6 Additional Definitions

"**Weight**" means, with respect to the Pricing Date or any Business Day and pertaining to a Stock Constituent, to an Equity Index Constituent, to an ETF Constituent, and/or to the Cash Position, the notional value of such Stock Constituent, Equity Index Constituent and/or ETF Constituent, as converted into the Reference Portfolio Currency, where such Stock Constituent and/or Equity Index Constituent and/or ETF Constituent is not denominated in the Reference Portfolio Currency, at the then prevailing exchange rate, divided by the Reference Portfolio Level, both as determined by the Calculation Agent in its reasonable discretion.

"**Holdings**" means, with respect to the Pricing Date or any Business Day and pertaining to an ETF Constituent, the Weight of such ETF Constituent, multiplied by the Reference Portfolio Level and by the prevailing number of outstanding Notes, all as determined by the Calculation Agent in its reasonable discretion.

4. Rebalancing of the Reference Portfolio

4.1 A Rebalancing may be initiated by the Reference Portfolio Advisor on any Business Day following the Pricing Date, effective as soon as reasonably practicable, as determined by the Calculation Agent in a commercially reasonable manner (such day, a "**Reference Portfolio Adjustment Date**"), subject to the occurrence of a Market Disruption Event on such Constituents Business Day. However, no more than 252 Rebalancings may be initiated in any 12 month period starting with the Pricing Date and reset on each anniversary of the Pricing Date. The expected number of Rebalancings in any such 12 month period is 252.

For the avoidance of doubt, a single Rebalancing may comprise of a change to more than one Constituent, and therefore a change in the position of multiple Constituents which were the result of a single Rebalancing instruction by the Reference Portfolio Advisor shall be considered as one Rebalancing.

4.2 On any Business Day, the Reference Portfolio Advisor may, as it deems appropriate in its reasonable discretion, give notice to the Calculation Agent not later than 5 p.m. CET for European orders and 7 p.m. CET for all other orders, of its intention to initiate a Rebalancing on such day (a "**Rebalancing Notice**"), and effective as soon as reasonably practicable, as determined by the Calculation Agent in a commercially reasonable manner. Save as the Calculation Agent may otherwise agree, a Rebalancing Notice shall not be effective if, at the time of such Rebalancing Notice is received, a

Rebalancing in respect of any Rebalancing Notice received earlier on such Business Day has not yet been completed or otherwise rejected. For the purposes hereof, a Rebalancing is deemed completed upon notification by the Calculation Agent to the Reference Portfolio Advisor, with respect to the relevant Rebalancing, of the relevant Notional Net Acquisition Cost of each Eligible Constituent notionally included in the Reference Portfolio, the Notional Net Disposal Value(s) of each Constituent notionally removed from the Reference Portfolio and the Weight of each Constituent notionally comprised in the Reference Portfolio following the relevant Rebalancing as provided in sub-Section 4.6 below.

- 4.3. The Calculation Agent will determine the exact number of Constituents based on prevailing market conditions, including exchange rates when relevant, in its reasonable discretion. Such number may deviate from the exact Weight recommended by the Reference Portfolio Advisor.
- 4.4 On each Reference Portfolio Adjustment Date, notional debits and credits to the Cash Position shall be made as follows:
- (i) In respect of the notional purchase of an Eligible Stock Constituent, of an Eligible Equity Index Constituent and/or of an Eligible ETF Constituent, a notional debit shall be made to the Cash Position corresponding to the Notional Net Acquisition Cost of such Eligible Stock Constituent, Eligible Equity Index Constituent and/or Eligible ETF Constituent, with effect from the date of the notional purchase of such Eligible Stock Constituent, Eligible Equity Index Constituent and/or Eligible ETF Constituent; and
 - (ii) In respect of the notional sale or unwind of a Stock Constituent, of an Equity Index Constituent and/or of an ETF Constituent, a notional credit (which may be equal to zero) shall be made to the Cash Position corresponding to the Notional Net Disposal Value (which may be equal to zero) of such with effect from the date of the notional sale of such Stock Constituent, Equity Index Constituent and/or ETF Constituent.
- 4.5 The Calculation Agent is entitled but has no legal duty to refuse the notional purchase of any Eligible Constituent and/or the notional sale or unwind of any Constituents and to require the Reference Portfolio Advisor to initiate a Rebalancing in certain circumstances, as follows:
- (i) The Reference Portfolio Advisor has selected an asset for inclusion in the notional Reference Portfolio which is not part of the Investment Universes;
 - (ii) The Reference Portfolio is, or following the relevant Rebalancing would breach any of the Investment Restrictions or any other rule or provision contained herein;
 - (iii) A Market Disruption Event has occurred in respect of the relevant Eligible Constituent or Constituent on the relevant Reference Portfolio Adjustment Date;
 - (iv) A FX Disruption Event has occurred in respect of the relevant Eligible Constituent or Constituent on the relevant Reference Portfolio Adjustment Date;
 - (v) The Calculation Agent determines that a Hedging Disruption Event has occurred in relation to any Constituent or Eligible Constituent. In this paragraph, "**Hedging Disruption Event**" means the determination by the Calculation Agent that it would not be reasonably practicable or it would otherwise be undesirable, for any reason, for a notional Investor wholly or partially to establish, re-establish, substitute or maintain any hedging transaction which in the determination of the Calculation Agent would be necessary or desirable to hedge the obligations of an issuer of securities linked to the performance of the Reference Portfolio (such reasons may include, but are not limited to (i) any material illiquidity in the market for any Constituent or Eligible Constituent, (ii) a change in any applicable law (including, without limitation, any tax law) or the promulgation of, or change in, the interpretation of any court, tribunal or regulatory authority with competent jurisdiction of any applicable law (including any action taken by a taxing authority); or (iii) the general unavailability of market participants who would agree to enter into any such hedging transaction on commercially reasonable terms or at all; and
 - (vi) The Calculation Agent determines that it would not be reasonably practicable for a notional Investor in the same position as the Issuer to make purchases and/or sales or unwind of any Eligible Constituent or Constituent, as the case may be, due to compliance, regulatory, reporting

or reputational constraints, take-over considerations, internal restrictions or lack of internal approval.

In the event that the Calculation Agent requires the Reference Portfolio to initiate a Rebalancing such that the Reference Portfolio complies with the foregoing, the Reference Portfolio Advisor shall, as soon as is reasonably practicable and without undue delay, initiate a Rebalancing such that the Reference Portfolio complies with the foregoing as at the immediately following Reference Portfolio Adjustment Date. The Reference Portfolio Advisor has no right to object to such Rebalancing required by the Calculation Agent.

For the avoidance of doubt: Notwithstanding the entitlements of the Calculation Agent under this paragraph, the sole responsibility and legal duty to manage the Reference Portfolio in compliance with the rules and provisions contained in this document is with the Reference Portfolio Advisor.

- 4.6 As soon as is reasonably practicable after receipt of an effective Rebalancing Notice on a Reference Portfolio Adjustment Date, and subject to any rejection pursuant to sub-Section 4.5 above, the Calculation Agent shall notify the Reference Portfolio Advisor of (a) the Notional Net Acquisition Cost and Notional Net Disposal Value applicable to each Eligible Constituent and/or Constituent that is subject to the Rebalancing and (b) the Weight of each Constituent comprised in the Reference Portfolio as a result of the Rebalancing. Upon receipt by the Reference Portfolio Advisor of such notice from the Calculation Agent, the Rebalancing shall be binding and conclusive on the Reference Portfolio Advisor in the absence of manifest error.

For the avoidance of doubt, a proposed Rebalancing shall be effective only if and to the extent that the Calculation Agent, on the Reference Portfolio Adjustment Date on which the relevant Rebalancing Notice is given, notifies to the Reference Portfolio Advisor the information mentioned in (a) and (b) above. Should a proposed Rebalancing not be fully effective on a Reference Portfolio Adjustment Date, the Reference Portfolio Advisor will be required to deliver one or more further Rebalancing Notices in accordance with the provisions hereof to execute the remainder of the initially proposed Rebalancing.

- 4.7 In this Section:

- (i) **"Notional Net Acquisition Cost"** means, in relation to an Eligible Stock Constituent, an Eligible Equity Index Constituent and/or an Eligible ETF Constituent, the notional price (including any applicable Adjustment Fee) at which the Calculation Agent determines that a notional Investor would be able to purchase or otherwise acquire such Eligible Stock Constituent, Eligible Equity Index Constituent and/or Eligible ETF Constituent (where applicable, on the relevant Exchange) at execution time on the relevant Reference Portfolio Adjustment Date, as converted into Reference Portfolio Currency where such Eligible Stock Constituent, Eligible Equity Index Constituent and/or Eligible ETF Constituent is not denominated in the Reference Portfolio Currency, at the then prevailing exchange rate, each as determined by the Calculation Agent in its reasonable discretion; and
- (ii) **"Notional Net Disposal Value"** means, in relation to an Eligible Stock Constituent, an Eligible Equity Index Constituent and/or an Eligible ETF Constituent, the notional price (net of any applicable Adjustment Fee) at which the Calculation Agent determines that a notional Investor would be able to sell or otherwise realise or dispose of such Eligible Stock Constituent, Eligible Equity Index Constituent, and/or Eligible ETF Constituent (where applicable, on the relevant Exchange) at execution time on the relevant Reference Portfolio Adjustment Date, as converted into Reference Portfolio Currency, where such Eligible Stock Constituent, Eligible Equity Index Constituent and/or Eligible ETF Constituent is not denominated in the Reference Portfolio Currency, at the then prevailing exchange rate, each as determined by the Calculation Agent in its reasonable discretion.

5. Fees and Costs applicable to the Reference Portfolio

The Reference Portfolio is calculated net of fees and costs associated with the creation, maintenance and management of the Reference Portfolio, as follows:

- (i) Reference Portfolio Advisor Fee (calculated daily): The Reference Portfolio Advisor will receive a quarterly fee of 0.0875% (0.35% per year) of the Reference Portfolio Level, deducted from the respective Reference Portfolio Level on a pro-rata daily basis as determined by the Calculation Agent.
- (ii) Issuer Management Fee (calculated daily): The Issuer will receive a quarterly fee of 0.1125% (0.45% per year) of the Reference Portfolio Level, deducted from the respective Reference Portfolio Level on a pro-rata daily basis as determined by the Calculation Agent.
- (iii) Reference Portfolio Fee: The sum of the Reference Portfolio Advisor Fee and the Issuer Management Fee.
- (iv) Adjustment Fee: An Adjustment Fee is levied for each Rebalancing, as defined in Annex 1, made in the Reference Portfolio and represents a percentage of the notional volume of each of the purchase and/or sale of a Constituent. The Adjustment Fee equals 0.10%.

The Adjustment Fee shall be deducted from the Cash Position.

For the avoidance of doubt, unwind costs to determine the Final Reference Portfolio Level shall constitute Adjustment Fees.

The Adjustment Fees fully remain with the Issuer.

- (v) Distribution Fee: None

6. Adjustments of the Reference Portfolio

If, at any time, any event occurs in relation to any Constituent which the Calculation Agent determines requires any adjustment(s) to be made to the composition of the Reference Portfolio, then the Calculation Agent shall (i) determine which adjustment(s) are to be made to the Reference Portfolio with a view to account for the effect of the relevant event and to preserve the prevailing composition of the Reference Portfolio immediately prior to the occurrence of such event and (ii) determine the date on which such adjustment(s) shall take effect.

For the avoidance of doubt: Notwithstanding the entitlements of the Calculation Agent under this paragraph, the sole responsibility and legal duty to manage the Reference Portfolio in compliance with the rules and provisions contained in this document is with the Reference Portfolio Advisor.

The Notes contain terms and conditions that allow the Issuer to terminate and redeem the Notes prior to the Maturity Date. In particular, but without limitation, the Notes may be subject to early redemption following exercise by the Issuer of the Issuer Call Option or following an Automatic Early Redemption Event, a Stop Loss Event or an FX Disruption Event. In addition, the occurrence of a Change in Law, Hedging Disruption, an Increased Cost of Hedging and/or certain tax events could result in the Notes being subject to early redemption. For further information on the circumstances in which any such event or circumstances could occur, potential investors should refer to the Terms and Conditions of the Notes (in particular §4 thereof) and these Final Terms (in particular paragraphs 13 (*Put/Call Options*), 23 (*Automatic Early Redemption*) and 46 (*Additional Provisions*) thereof).

Potential investors should note that the amount payable in the event of early redemption may vary depending on the circumstances in which the Notes are redeemed and such amount may be, in any event, considerably below what the Reference Portfolio Level would otherwise have been on the scheduled redemption date of the Notes.

Stop Loss Event

As mentioned above, a “Stop Loss Event” applies to the Notes so that if on any day prior to the Expiration Date, the value of the Reference Portfolio is equal to or below the Stop Loss Level (as determined by the Calculation Agent), the Notes will be redeemed early. The Stop Loss Event trigger is intended to limit losses that investors may otherwise incur where the value of the Reference Portfolio declines to or below the Stop Loss Level. However, investors should note that the amount payable on redemption following a Stop Loss Event trigger is principally dependent on the amount received by the Issuer in unwinding its hedge positions relating to the Notes, which such amount will largely depend on the circumstances prevailing at the time and which such amount may be equal to zero. In circumstances where the amount received by the Issuer from unwinding its hedge positions is less than an amount equal to 5 per cent. of the aggregate principal amount outstanding of the Notes, investors would be entitled to receive a minimum redemption amount equal to 5 per cent. of the Specified Denomination per Note.

Postponement of the Redemption Determination Date

The Notes contain terms and conditions pursuant to which the Redemption Determination Date may be postponed. In particular, but without limitation, the Redemption Determination Date may be postponed in the event that it is a Disrupted Day or in the event that an Unwind Disruption or an FX Disruption Event exists on such date. For further information on the circumstances in which any such event or circumstances could occur, potential investors should refer to these Final Terms (in particular paragraph 46 (*Additional Provisions*) thereof).

Potential investors should note that no compensation, interest or other amount is due in the event of any such postponement or extension.

Disrupted Days and FX Disruption Events

Investors are exposed to the occurrence of a Disrupted Day, which the Calculation Agent may determine has occurred if, in respect of any Constituent or Eligible Constituent, trading and/or transactions in the

relevant Constituent or Eligible Constituent is or are adversely affected (including, without limitation, where trading and/or transactions are limited by reason of illiquidity, any circumstances of market or trading disruption or the unavailability for any reason of any quote, official price or valuation in relation to the relevant Constituent or Eligible Constituent). Investors are also exposed to the occurrence of an FX Disruption Event which may occur in the event that (i) it is generally illegal, impossible or inadvisable to convert one unit of any currency in which a Constituent is denominated (a “**Denomination Currency**”) into ZAR, or it is impossible to deliver ZAR to accounts outside South Africa. An FX Disruption Event may also occur if it is generally not possible to exchange ZAR for any Denomination Currency at a spot rate in a relevant exchange market.

The occurrence of a Disrupted Day or an FX Disruption Event may have an adverse impact on the amount payable to Noteholders, on redemption through delay in payment and/or a decline in value of the Reference Portfolio Level or a Constituent thereof. In addition, potential investors should note that, if an FX Disruption Event occurs and the Issuer elects to redeem the Notes early, the amount payable to Noteholders (if any) will be determined by reference to the proceeds received by the Issuer from terminating hedging positions entered into by the Issuer for the purposes of hedging its risks in respect of the Notes (subject to a minimum redemption amount equal to 5 per cent. of the Specified Denomination per Note). In these circumstances the Issuer may elect to pay any redemption proceeds in South African Rand or any other currency and Noteholders will bear any consequential exchange risk in relation to any such other currency.

For further information, potential investors should refer to paragraph 46 (*Additional Provisions*) of these Final Terms.

No secondary market

So long as the Notes are listed on the JSE, the Issuer has agreed to maintain a secondary market in respect of the Notes in accordance with the listing rules (provided that there are certain situations in which such secondary market may be suspended and/or discontinued). Other than as provided on the JSE, none of the Issuer, the Calculation Agent, the Manager, the Reference Portfolio Adviser or any other person makes any commitment to provide liquidity by means of bid and/or offer prices for the Notes, and assumes no obligation to quote any such prices or with respect to the level or determination of such prices.

Potential investors therefore should not rely on the ability to sell Notes at a specific time or at a specific price. Potential investors should note that prices quoted typically include a spread and therefore may deviate from the market value of the Notes. By selling the Notes in the secondary market investors may receive less than the capital invested.

In case of a secondary market transaction, there is a possibility that costs, including taxes, related to or in connection with the Notes may arise for investors that are not paid by the Issuer or imposed by the Issuer.

Risk factors relating to the Reference Portfolio

Nature of the Reference Portfolio

Amounts payable on redemption of the Notes are generally determined by reference to the performance of the Reference Portfolio over a specific time (although the Notes are subject to a minimum redemption amount equal to 5 per cent. of the Specified Denomination per Note). Accordingly, investors will be reliant on the Reference Portfolio performing positively between issuance and redemption of the Notes.

The Reference Portfolio Advisor has created and maintains the Reference Portfolio as a notional portfolio by selecting the initial Constituents and their weightings and thereafter actively managing and maintaining the Reference Portfolio by rebalancing the Reference Portfolio, i.e. changing the weightings of the Constituents, removing existing Constituents and selecting new Eligible Constituents, in its reasonable discretion.

For the avoidance of doubt, the Reference Portfolio is a notional portfolio that mirrors a theoretical investment according to the list of Constituents and their respective weightings, as adjusted from time to time. Therefore, as the Reference Portfolio is only notional and comprised only by theoretically included Constituents, there is no obligation of the Reference Portfolio Advisor or of the Issuer to make any real investment, or execute any transaction, in any Constituent. Furthermore there is no obligation of the Issuer to hedge itself in relation to the Reference Portfolio or any Constituent.

None of the Issuer, the Calculation Agent, the Manager, the Reference Portfolio Adviser or any other person makes any representation or warranty with respect to the performance of the Reference Portfolio or the economic success or lack of success of an investment in the Notes.

Further information about the Reference Portfolio and the Reference Portfolio Advisor's role is contained in the Description of the Reference Portfolio and the Reference Portfolio Adviser set out in Annex I.

The value of the Reference Portfolio and so, generally speaking, the amount of any redemption proceeds a Noteholder receives in respect of the Notes will depend heavily on the skills of the Reference Portfolio Advisor in analysing, selecting and acting in respect of the Constituents of the Reference Portfolio. Consequently, Noteholders should ensure they have made full investigation into the experience, skills and ability of the Reference Portfolio Advisor to act in this regard. Noteholders should be aware that none of the Issuer, the Calculation Agent or the Manager shall be required to, and shall not, monitor the performance of the Reference Portfolio Advisor or of the Reference Portfolio and no such party makes any representation as to the skills or ability of the Reference Portfolio Advisor and has performed no diligence on it.

Uncertainty about performance

The value of the Reference Portfolio and/or the Reference Portfolio Constituents may vary over time and may increase or decrease by reference to a variety of factors e.g. corporate actions, macroeconomic factors and speculation. Potential investors should note that an investment in the Notes may be subject to similar risks to a direct investment in the Reference Portfolio Constituents. It is not possible to reliably predict the future performance of the Reference Portfolio Constituents or the Reference Portfolio. Likewise, the historical performance (if any) of the Reference Portfolio Constituents and/or the Reference Portfolio itself does not allow for any conclusions to be drawn about the future performance of any Reference Portfolio Constituent or the Reference Portfolio or the Notes. The Reference Portfolio and/or Reference Portfolio Constituents may have only a short operating history or may have been in existence only for a short period of time and may deliver results over the longer term that may be lower than originally expected.

No rights in the Reference Portfolio or any Reference Portfolio Constituents

None of the Issuer, the Calculation Agent, the Manager, the Reference Portfolio Adviser or any other person is under any obligation whatsoever to acquire or hold any Reference Portfolio Constituent. Accordingly, potential investors should be aware that neither the Reference Portfolio nor the Reference Portfolio Constituents will be held by the Issuer for the benefit of the Noteholders, and that Noteholders will not obtain any rights of ownership (including, without limitation, any voting rights, any rights to receive dividends or other distributions or any other rights) with respect to the Reference Portfolio or any Reference Portfolio Constituent. As a general matter, Noteholders shall not have any beneficial, proprietary or other interest in the Reference Portfolio or any Constituent whatsoever and no charge, mortgage, pledge, lien or other security or quasi-security interest is granted in connection with the Notes.

Specific risks related to the performance of Reference Portfolio Constituents comprising shares

The performance of a share used as a Reference Portfolio Constituent depends on the performance of the company issuing the shares. But even regardless of the financial position, cash flows, liquidity and results of operations of the company issuing the shares, the price of a share can be subject to fluctuations or adverse changes in value. In particular, the development of the share price can be influenced by the general economic situation and market sentiment. Negative performance of a share used as a Reference Portfolio Constituent can therefore have an adverse impact on the performance of the Reference Portfolio and amounts payable under the Notes.

Similar risks to a direct investment in shares

The performance of a share used as a Reference Portfolio Constituent may be subject to factors such as the dividend or distribution policy, financial prospects, market position, corporate actions, shareholder structure and risk situation of the issuer of the share, short selling activities and low market liquidity as well as to political influences. Accordingly, an investment in the Notes may bear similar risks to a direct investment in the shares comprising the Reference Portfolio.

The performance of the shares comprising the Reference Portfolio may be subject to factors outside the Issuer's sphere of influence, such as the risk of the relevant companies becoming insolvent, insolvency proceedings being opened over the companies' assets or similar proceedings under the laws applicable to the companies being commenced or similar events taking place with regard to the companies, which may result in a total loss for the Noteholder, or the risk that the prices of the Reference Portfolio Constituents are highly volatile. Dividend or distribution policy, financial prospects, market position, any capitalisation measures, shareholder structure and risk situation may also affect share prices.

In addition, the performance of Reference Portfolio Constituents depends particularly on the development of the capital markets, which in turn are dependent on the global situation and the specific economic and political environment. Shares in companies with low or average market capitalisation may be subject to even higher risks (e.g. with regard to volatility or insolvency) than shares in larger companies. Furthermore, shares in companies with a low market capitalisation may be extremely illiquid due to smaller trading volumes. Shares in companies having their seat or exerting their relevant operations in countries with a high legal uncertainty are subject to additional risks, such as the risk of governmental measures being taken or nationalisation taking place. This may result in the partial or total loss of value.

Other risks relating to the Notes

Conflicts of interest in relation to the Issuer and its affiliates

The Issuer and its affiliates may participate in transactions related to the Notes in some way, for their own account or for the account of a client. Such transactions may not serve to benefit the Noteholders and may have a positive or negative effect on the value of the Reference Portfolio or, as the case may be, any Reference Portfolio Constituent(s), and consequently on the value of the Notes. Furthermore, any such person may become a counterparty to hedging transactions relating to obligations of the Issuer stemming from the Notes. As a result, conflicts of interest can arise between such persons, as well as between such persons and investors, in relation to obligations regarding the calculations and determinations in relation to the Notes and other associated determinations.

Furthermore, the Issuer and its affiliates may issue other derivative instruments relating to the Reference Portfolio or, as the case may be, the Reference Portfolio Constituents and the introduction of such products may affect the value of the Notes. The Issuer and its affiliated companies may receive non-public information relating to Reference Portfolio Constituents and neither the Issuer nor any of its affiliates undertakes to make this information available to Noteholders. In addition, the Issuer and/or its affiliated companies may publish research reports on Reference Portfolio Constituents. Such activities could present conflicts of interest and may negatively affect the value of the Notes. Within the context of the offering and sale of the Notes, the Issuer or any of its affiliates may directly or indirectly pay fees in varying amounts to third parties, such as distributors or investment advisors, or receive payment of fees in varying amounts, including those levied in association with the distribution of the Notes, from third parties. Potential investors should be aware that the Issuer may retain fees in part or in full. The Issuer or, as the case may be, the Manager, upon request, will provide information on the amount of these fees.

Conflicts of interest in relation to the Reference Portfolio Advisor

The Reference Portfolio Advisor may not only act as Reference Portfolio Advisor with regard to the Reference Portfolio, but may at the same time act as asset manager or financial consultant with regard to investors in the Notes, and in various other roles, which may induce potential conflicts between investors' interests and Reference Portfolio Advisor's interests. Furthermore, certain persons authorised to act on behalf of the Reference Portfolio Advisor may be involved in placement and distribution of the Notes, and such involvement may also give risk to conflicts of interest between the Reference Portfolio Advisor and investors.

Withholding tax

Potential investors should note that any payment under the Notes may be subject to withholding tax (such as, *inter alia*, Swiss Withholding Tax, and/or withholding related to FATCA or 871(m) of the US Tax Code). **Any payments due under the Notes are net of such tax.** Please refer to the Terms and Conditions of the Notes and the Information Memorandum for detailed information. If the Issuer is required to withhold any amount pursuant to Section 871(m) or FATCA of the U.S. Tax Code, the Issuer will not be required to pay additional amounts with respect to the amount so withheld.

Specifically, a 30% withholding tax is imposed on certain "dividend equivalents" paid or deemed paid to a non-U.S. holder with respect to a "specified equity-linked instrument" that references one or more dividend-paying U.S. equity securities. The withholding tax can apply even if the instrument does not provide for payments that reference dividends. Treasury regulations provide that the withholding tax applies to all dividend equivalents paid or deemed paid on specified equity-linked instruments that have a delta of one ("delta one specified equity-linked instruments") issued after 2016 and to all dividend equivalents paid or deemed paid on all other specified equity-linked instruments issued after 2018.

The Issuer will treat the Products as specified equity-linked instruments that are subject to withholding on dividend equivalents. The Issuer will withhold 30% in respect of dividend equivalents paid or deemed paid on the Products and will not pay any additional amounts with respect to any such taxes withheld. In respect of any Constituents which are U.S. equity securities, for purposes of determining the amount of a dividend treated as notionally reinvested, such dividend shall be reduced by the 30% withholding tax as referenced under the Dividend Treatment section of this Certificate. The Issuer hereby notifies each holder that for purposes of Section 871(m), the Issuer will withhold in respect of dividend equivalents paid or deemed paid on the Products on the dividend payment date as described in Treasury regulations section 1.1441-2(e)(4) and Revenue Procedure 2017-15 §3.03(B), as applicable. Investors in the Products should consult their own tax advisors regarding the application of the withholding tax to their Products and the availability of any reduction in tax pursuant to an income tax treaty. No assurance can be given that investors in the Products will be able to successfully claim a reduction in tax pursuant to an income tax treaty.
